DETAILED ACTION

Receipt of the Amendments and Response submitted November 6, 2000 is acknowledged.

Disclosure Objection

1. The disclosure is objected to because of the following informalities: The drawing of acylglycerol structure on page 7 is incorrect according to the description of the structure on page 7 lines 5-25. The chemical structure should be consistent with the description. Note acylglycerols may be drawn in various forms as long as the R is properly defined. If the R is defined as hydroxyl group or acid, (page 7, line 15) the drawing should not contain the carbonyl group and the oxygen. If the R is defined as acid residues (page 7, lines 20-25), the drawing should not contain carbonyl groups. (See the abstract in WO/49129 for a proper drawing and defined R groups).

Appropriate correction is required.

Claim Rejections 35 U.S.C. – 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 5-8 and 13-17 are rejected under 35 U.S.C. 103(a) as being unpatentable over Nilsen et al. (US 5,885,594) in view of Cook et al. (US 5,554,646, No. 4 in the IDS of April 13, 2000) for reasons essentially the same as set forth in the prior office action. Regarding newly

within the skill of artisan. Applicants' argument appears directed to a product by process. The instant claims do not read on product by process.

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Shengjun Wang, Ph.D. whose telephone number is (703) 308-4554. The examiner can normally be reached on Monday-Friday from 8:30 to 5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Minna Moezie, J.D., can be reached on (703) 308-4612. The fax phone number for the organization where this application or proceeding is assigned is (703) 308-4556.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 308-1235.
